## **Media Permission Slip**

There are times during the year that photos of students are taken or Brown Science Prep activities are videotaped. At times, we would like to publish, display or circulate these photos or videos to help publicize our student's accomplishments and help prospective Brown Science Prep participants, their parents, and school administrators learn more about what the program has to offer. This media exposure is extremely helpful for the continuation and improvement of the program. Particularly, we would like to post photos of past lessons and activities on our web site, and these photos oftentimes feature our students. Other than a photo/video image, no other form of personal identification (e.g., student name, school name, address) will ever be posted on the Brown Science Prep website. Nonetheless, you may have a good reason for not having your (son/daughter/ward's) photo or video footage released. If you do, we need to know this. Therefore, please indicate below your decision concerning this matter. Your selection will remain confidential and will not affect whether your (son/daughter/ward) is eligible to participate in the program.

### **Please make a selection:**

I have no objection to the display, publication, circulation or broadcast of a picture or videotape of my (son/daughter/ward) partaking in a Brown Science Prep-related presentation or activity. I will allow Brown Science Prep to use photos, slides, or images featuring my (son/daughter/ward) without compensation in productions, publications, on the web, or other printed or electronic materials related to the role and function of Brown Science Prep. I understand that I may request such photos/video images to be removed from the website at any time and for any reason and that Brown Science Prep will comply with my request.

I DO NOT want any display, publication, circulation or broadcast of a picture or videotape of my (son/daughter/ward) partaking in a Brown Science Prep-related presentation or activity.
